

Synbio-Rice Powder

(High Protein Rice Powder Supplemented with Synbiotic)

Product Feature

Synbio-Rice-Powder is a functional ingredient and instant rice powder containing high levels of protein from mixed beans and carbohydrate from Jasmine rice. It is enriched with synbiotic, combining of probiotics (*Lactobacillus rhamnosus*) and prebiotics (Fructo-oligosaccharide), helping promote healthy gut and stimulate immune system.

Application

- * Consume the powder directly or dissolve in warm water before drinking
- * Use as a functional ingredient for healthy food products such as cereal bars
- * Develop it to become high protein rice tablet candies containing synbiotics
